Set / Scenery

The set may be minimal as shown below, or built up in different areas if space allows. The diagram indicates on-stage seating for the chorus, if it is essential to have them always in the one performing area. If painting scenery, this should depict bare trees. Hagbane's castle could be presented on a flat to Stage Left.

Arch – should be removed after Scene 2.

Boulder to hide behind (Downstage Left) – needed for several characters in several scenes, so may be on stage throughout.

Movable post to which Sophie can be tied (Downstage Left, Scene 7 only).
